Master of Public Health in Public Health Practice (MPH-PHP)

The Wayne State University **Master of Public Health** degree is designed for individuals with a range of academic and professional backgrounds. Public health professionals are concerned with disease prevention, health promotion, and clinical intervention. Learning occurs in interdisciplinary teams and builds on professional expertise (nursing, medicine, pharmacology, social work, dentistry, veterinary science, allied health) and the social and basic sciences. The five core areas of public health are biostatistics, epidemiology, health behavior, environmental health, and health care administration.

The **Master of Public Health in Public Health Practice (MPH-PHP)** prepares graduates with the knowledge and skill to conduct culturally competent public health research, to plan and evaluate health programs in diverse settings, and to contribute to the science of disease prevention and health promotion. The public health programs are administered by the School of Medicine, Department of Family Medicine and Public Health Sciences in accordance with WSU Graduate School policy.
